

January 15, 2015

Maxim Deerland Peaking Station Notice of project approval

Thank you for your ongoing participation in the Maxim Deerland Peaking Station. The Alberta Utilities Commission (AUC) approved this project for construction on December 17, 2014.

Next steps

We plan to begin construction in October 2015 and anticipate it will take five months to complete.

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- transmission structure construction
- wire stringing on the transmission structures
- work at the existing Deerland Substation

AUC approval

When the AUC approves a transmission project, it grants AltaLink Permits and Licences. The Permits and Licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding3419/SitePages/ViewDispositions.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Project background

The Maxim Deerland Peaking Station project is located approximately five kilometres (three miles) north of Bruderheim and involves:

- adding a new 138 kV circuit breaker to the Deerland Substation
- constructing approximately 260 metres (855 feet) of new transmission line
- removing approximately 240 metres (785 feet) of existing transmission line

Alberta's population has grown significantly in recent years and the majority of the transmission system has not been upgraded to keep pace with the growth. This project will help meet the growing demand

for power in the Bruderheim area and will ensure Albertans continue to have a reliable supply of electricity.

Contact us

We are available to gather any further input you have or address any questions or concerns. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453.

Further information about this project and maps are available on www.altalink.ca/regionalprojects. You will find the project in the list in alphabetical order.

Sincerely,

Dave Lee
Manager, Stakeholder Engagement
