Riverview Wind Power Facility Interconnection Notice of application filing

Thank you for your ongoing participation in the Riverview Wind Power Facility Interconnection. We submitted an amendment to our application for the project with the Alberta Utilities Commission (AUC) on August 27, 2018.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

We will notify you of the AUC's decision regarding the project. If the project is approved, you may see or hear the following during the construction process:

- noise and construction crews
- work at the existing Castle Rock Ridge Substation

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'eFiling System Login' button on the left side of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter 2402 into the 'Go to...' search bar on the left side of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Riverview" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

Riverview Limited Partnership's, by its general partner Enel Alberta Wind Inc., proposed Riverview Wind Power Plant was selected for development in round one of the Renewable Electricity Program (REP) and is moving forward. As a result, AltaLink's Riverview Wind Power Interconnection, which will connect the wind project to the Alberta transmission system, is also moving ahead. More information about the REP can be found at www.aeso.ca. The proposed Riverview Wind Power Facility Interconnection includes adding one 240 kilovolt (kV) circuit breaker and associated equipment to the existing Castle Rock Ridge Substation.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <http://www.altalink.ca/projects/view/143/riverview-wind-power-facility-interconnection>.

Sincerely,

Dave Lee
Manager, Stakeholder Engagement
