Southwest Calgary Ring Road Transmission Project
RE: Construction update - Temporary Parking Restriction

As part of the Southwest Calgary Ring Road Transmission Project, AltaLink began construction in May 2017 to relocate a portion of a transmission line underground along 37 Street SW. The majority of that work was completed on October 17, 2017.

The remaining work for AltaLink to complete our portion of the project requires AltaLink to implement a temporary parking restriction from October 23, 2017 to December 22, 2017 in order to complete the work safely.

The parking restrictions will be along 66 Avenue SW from 37 Street SW to approximately Law Drive SW and at the intersection of Lethbridge Crescent SW and 66 Avenue SW. This is to allow vehicles and equipment to enter and exit the work area.

While this portion of work will affect a small localized area along 66 Avenue SW and Lethbridge Crescent SW, residents should be able to park vehicles in unaffected areas along those roads.

AltaLink remains committed to trying to minimize the time spent on construction in your community. Thank you again for your assistance in allowing us to complete our work safely.

If you have any questions, please contact stakeholderrelations@altalink.ca or 1-877-267-1453.

Sincerely,

Dave Lee
Manager, Consultation
