Southwest Calgary Ring Road Transmission Project: Notice of application filing

Thank you for your ongoing participation in the Southwest Calgary Ring Road Transmission Project. We submitted an application for the project to the Alberta Utilities Commission (AUC) on October 30, 2015.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

We will notify you of the AUC's decision regarding the project. If the project is approved, construction could begin in Q4 2016 and we anticipate it will take approximately 18 months to complete. We will provide more information regarding the construction process as the project progresses.

The application

The application can be viewed on the AUC's website at www.auc.ab.ca. To access the application, click on the 'eFiling System Login' button on the left side of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note that any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter 20986 into the 'Go to...' search bar on the left side of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Southwest Calgary Ring Road" into the 'Proceedings description' search bar.

If you have any issues accessing the application, please contact us and we will mail a copy of the application to you.

The project

The Southwest Calgary Ring Road Transmission Project includes:

- removing approximately 2.5 kilometres (1.5 miles) of 240 kilovolt (kV)/138 kV double circuit steel lattice transmission line from Tsuu T'ina Nation land and relocating it underground within the Transportation/Utility Corridor (TUC) south of Glenmore Trail and west of 37 Street Southwest
- removing two segments of two pole 138 kV transmission line, approximately one kilometre (0.6 miles) in length, from Tsuu T'ina Nation land and relocating it as a double circuit 138 kV transmission line on the south side of Highway 8 within the TUC
- relocating approximately one kilometre (0.6 miles) of a 240 kV double circuit transmission line further west along Sarcee Trail
- modifying existing structures and modifying, as well as adding equipment, within the existing Sarcee Substation

Contact us

We are available to gather any further input you have or address any questions or concerns. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. You can also view all project materials at www.altalink.ca/projects.

Sincerely,

Dave Lee
Manager, Stakeholder Engagement
