

Need for developments in the Chestermere and Balzac Areas

FAST FACT

Alberta's electric transmission system comprises the towers, wires and related equipment that are a part of moving electricity from where it is generated to where it is used.

FortisAlberta Inc. (FortisAlberta) has applied to the Alberta Electric System Operator (AESO) for transmission system access to reliably supply growing demand for electricity in the Chestermere and Balzac areas. FortisAlberta's request can be met by the following solution:

> PROPOSED SOLUTION

- Construct the Chestermere 419S substation with two 138 kV transformers, three 138 kV circuit breakers, and associated equipment.
- Add two 138 kV transmission lines to connect the Chestermere 419S substation to the transmission system.
- Modify the Turbo Balzac 391S substation by adding a 25 kV circuit breaker and associated equipment.

> NEXT STEPS

- The AESO intends to apply to the Alberta Utilities Commission (AUC) for approval of the need in mid-2016.
- The AESO's needs identification document (NID) application will be available on the AESO's website at www.aeso.ca/nid at the time of its application to the AUC.

The following organizations have key roles and responsibilities in providing access to the transmission system:

> THE AESO:

- Must plan the transmission system and enable access for electricity generators and qualified customers
- Is regulated by the AUC and must apply to the AUC for approval of its NIDs

> ALTALINK MANAGEMENT LTD. (ALTALINK):

- Is the transmission facility owner in the Chestermere and Balzac areas
- Is responsible for detailed siting and routing, constructing, operating and maintaining the associated transmission facilities
- Is regulated by the AUC and must apply to the AUC for approval of its transmission facilities applications

> WHO IS THE AESO?

The Alberta Electric System Operator (AESO) is a not-for-profit organization with no financial interest or investment of any kind in the power industry. We plan and operate Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans.

The AESO is committed to protecting your privacy. Your feedback, comments and/or contact information collected by the AESO will be used to respond to your inquiries and/or to provide you with further information about the project. The AESO will not use your personal information for any other purpose and will not disclose your information without consent or a legal obligation. If you choose to communicate by email, please note, email is not a secure form of communication. Security of your communication while in transit cannot be guaranteed.
