

NOTES

- Guy boxes will be located 1 metre north of the existing 765L transmission line to facilitate the modifications required for the in/out connection to the Chestermere 419S Substation.
- Construction workspace is included within the proposed Alternate substation property boundary.
- Final access trail location will be determined through detailed engineering design.
- The substation fenceline is approximately 60 metres by 75 metres.
- The substation property boundary is approximately 110 metres by 120 metres.
- The substation property boundary setback is approximately 115 metres from the centreline of Highway 791 as per Alberta Transportation guidelines.
- All dimensions are approximate.
