

# Upcoming construction activities in your area

## GATE INSTALLATIONS

Between April 1 and May 20, AltaLink will be installing gates on 12 access roads that join the transmission line right-of-way adjacent to the Bow Valley Parkway. Single lane closures with alternating traffic may be used on the Bow Valley Parkway when loading and unloading equipment.

## RESTORATION ACTIVITIES

Between April 1 and June 30, AltaLink will be performing site restoration activities along the 551L right-of-way, including:

- Weed control at various sites
- Temporary restoration (including replacing topsoil) and erosion control where needed
- Replanting vegetation by hydro seeding and hand reseeding where needed

Please note that during restoration activities, single lane closures with alternating traffic may be in effect along the Bow Valley Parkway.

## ROAD REPAIRS

Between April 1 and June 30, AltaLink will be performing minor road repairs at two points along the Bow Valley Parkway, up to three hours for each location. Single lane closures with alternating traffic will be in effect during these times.

## HELICOPTER ACTIVITY

From June 27 to June 30, helicopters will be performing wildlife surveys in preparation for the next phase of construction.

If you have any questions or concerns, please contact us at 1-877-267-1453 (toll-free) or [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca).

## 551L Transmission Line Rebuild

AltaLink's 551L Transmission Line Rebuild intends to increase the reliability of the electric system in the Lake Louise-Banff area while preserving the Park visitor experience. The project involves rebuilding the existing 60 kilometre-long 551L transmission line between the Banff and Lake Louise substations.

We began construction on the project in January 2016 and anticipate a completion date of December 2020.

As you may live near the project, we want to let you know about the upcoming construction activities that you may notice along the Bow Valley Parkway.
