

November 22, 2016

911L Transmission Line Removal Notice of project approval

Thank you for your ongoing participation in the 911L Transmission Line Removal. The Alberta Utilities Commission (AUC) approved this project on November 1, 2016.

Next steps

We plan to begin salvaging the line in November 2016 and anticipate it will take approximately two years to complete, including reclamation activities.

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- crews dismantling and removing structures
- trucks hauling structures from the project site

AUC approval

When the AUC approves a transmission project, it grants AltaLink Permits and Licenses. The Permits and Licenses for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding22078/SitePages/ViewDispositions.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

If you have any issues accessing these Permits and Licences, please contact us at the details below and we will mail copies of the documents to you.

Project background

The 911L transmission line is no longer required due to the construction and energization of the 1037L/1038L transmission lines, which were part of the South Foothills Transmission Project.

AltaLink applied to:

- salvage approximately 116 kilometres of the existing 911L transmission line between the area south of Aldersyde and the northern boundary of the Piikani Nation reserve lands
- salvage approximately 5 kilometres of the existing 725CL transmission line located south of the Town of Fort Macleod

Contact us

AltaLink is available to gather any further input you have or address any questions or concerns. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453.

Further information about this project and maps are available at:
