## **13L Transmission Line Rebuild Notice of application filing**

Thank you for your ongoing participation in the 13L Transmission Line Rebuild project. We submitted our facility application for the project to the Alberta Utilities Commission (AUC) on May 14, 2018.

### **Next steps**

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit [www.auc.ab.ca](http://www.auc.ab.ca).

We will notify you of the AUC's decision regarding the project. If the project is approved, construction activities could begin as early as September 2018 and is expected to take approximately 10 months to complete. Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

If the project is approved, you may see or hear the following during the construction process:

- noise and construction crews
- pole removal, installation and stringing activities

### **The application**

The application (no. 23556) can be viewed on the AUC's website at [www.auc.ab.ca](http://www.auc.ab.ca).

To access the application, click on the 'eFiling System Login' button on the left side of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca).

Once your account has been created and you have successfully logged in, enter 23556 into the 'Go to...' search bar on the left side of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "13L" into the 'Description' search bar.

If you have any issues accessing the application or would like a printed copy, please contact us at the details below and we will mail a copy of the application to you.

## Project background

The 13L Transmission Line Rebuild is located between the towns of Okotoks and High River.

The 13L transmission line was built in 1926 and has reached the end of its life cycle. Rebuilding this transmission line will ensure that residents in the area continue to have a reliable supply of power. For detailed information about our routing, please see our application as per the information above.

## Contact us

AltaLink is available to gather any further input you have or address any questions or concerns. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453.

Further information about this project and maps are available at:  
<http://www.altalink.ca/projects/view/245/13l-transmission-line-rebuild>.

Sincerely,

Dave Lee  
Manager, Consultation
