**EPCOR Riverview Substation Connection:  
Notice of application filing**

Thank you for your ongoing participation in the EPCOR Riverview Substation Connection project. We submitted our facilities application for the project to the Alberta Utilities Commission (AUC) on December 8, 2017.

**The application**

The application can be viewed on the AUC's website at [www.auc.ab.ca](http://www.auc.ab.ca). To access the application, click on the 'eFiling System Login' button on the left side of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen.

Please note that any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca).

Once your account has been created and you have successfully logged in, enter 23192 into the 'Go to...' search bar on the left side of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "EPCOR Riverview" into the 'Description' search bar. If you have any issues accessing the application, please contact us and we will mail a copy of the application to you.

**Next steps**

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit [www.auc.ab.ca](http://www.auc.ab.ca). We will notify you of the AUC's decision regarding the project. If the project is approved, construction could begin in summer 2019 and we anticipate it will take approximately two months to complete.

**The project**

The project involves modifying an existing transmission line by salvaging approximately 60 to 70 metres of the line and adding two new structures to accommodate the connection of EPCOR's proposed Riverview Substation to the electric system.

**Contact us**

We are available address any questions or concerns. Please contact us at 1-877-269-5903 or [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or. You can also view all project materials at [www.altalink.ca](http://www.altalink.ca).

Sincerely,

Dave Lee  
Manager, Consultation
