## **526L Transmission Line Relocation Notice of application filing**

Thank you for your ongoing participation in the 526L Transmission Line Relocation. We submitted an application for the project to the Alberta Utilities Commission (AUC) on May 29, 2017.

### **Next steps**

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit [www.auc.ab.ca](http://www.auc.ab.ca).

We will notify you of the AUC's decision regarding the project. If the project is approved, construction could begin in November 2017 and will take approximately six months to complete. If the project is approved, you may see or hear the following during the construction process:

- noise and construction crews
- transmission structure construction and wire stringing
- vegetation clearing on the right-of way as required

### **The application**

The application can be viewed on the AUC's website at [www.auc.ab.ca](http://www.auc.ab.ca). To access the application, click on the 'eFiling System Login' button on the left side of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca).

Once your account has been created and you have successfully logged in, enter 22696 into the 'Go to...' search bar on the left side of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "526L" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

### **Project background**

Part of the existing 526L transmission line is near the edge of an eroding river bank on the Sakwatamau River. It must be relocated to maintain the safety and reliability of the electric system in the area. The project involves:

- removing approximately two kilometres of existing transmission line and rebuilding the line further away from the banks of the Sakwatamau River

## Contact us

Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. Further information about this project and maps are available at <http://www.altalink.ca/projects/view/257/526l-transmission-line-relocation>.

Sincerely,

Dave Lee  
Manager, Stakeholder Engagement
