**Stirling Wind Project Connection
Notice of Project Approval**

Thank you for your ongoing participation in the Stirling Wind Project Connection project. The Alberta Utilities Commission (AUC) approved this project for construction on April 26, 2019.

Next steps

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

Depending on where you are in relation to the project, you may see or hear

- construction staking of potential structure locations and boundaries for rights-of-way and temporary workspace
- noise and construction crews
- selective tree and vegetation clearing
- material delivery
- transmission structure construction
- wire stringing on the transmission structures
- installation of underground fiber optic

AUC approval

When the AUC approves a transmission project, it grants AltaLink permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding22546/SitePages/Home.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

If you have any issues accessing these permits and licences, please contact us at the details below and we will mail copies of the documents to you.

Project background

The AUC has approved the preferred route for the transmission line along Township Road 72. We are building approximately five kilometres of 138 kilovolt (kV) transmission line to connect Stirling Wind Project's Red Coat Substation to the electric system. Approximately 20 kilometers of underground fiber optic will also be installed.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at AltaLink project page <http://www.altalink.ca/projects/view/260/stirling-wind-project-connection>.

Sincerely,

Dave Lee
