

October 22, 2018

Capital Power Whitla Wind Facility Connection

Notice of project approval

Thank you for your ongoing participation in the Capital Power Whitla Wind Facility Connection project. The Alberta Utilities Commission (AUC) approved this project for construction on October 1, 2018.

Next steps

We plan to begin construction in December 2018 and anticipate that it will take approximately seven months to complete.

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- selective tree and vegetation clearing
- transmission structure construction
- wire stringing on the transmission structures
- work at an existing substation

AUC approval

When the AUC approves a transmission project, it grants Altalink Permits and Licences. The Permits and Licences for this project can be viewed on the AUC website at:

<http://www.auc.ab.ca/Pages/facility-project-decisions.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

If you have any issues accessing these Permits and Licences, please contact us at the details below and we will mail copies of the documents to you.

Project background

The approved project involves building approximately 12.5 kilometres of 240 kilovolt (kV) single circuit transmission line. A new 240 kV circuit breaker and other associated equipment will be added to the Whitla Substation. AltaLink will also be installing optical ground wiring (also known as OPGW) on top of the new transmission line for protection and telecommunications purposes. Please see the attached map for a detailed overview of the project area.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <http://www.altalink.ca/projects/view/280/capital-power-whitla-wind-facility-connection>.

Sincerely,

Dave Lee
