Fortis Conrad Substation Upgrade Notice of application filing

Thank you for your ongoing participation in the Fortis Conrad Substation Upgrade project. We submitted the facility application for the project to the Alberta Utilities Commission (AUC) on March 23, 2018.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

We will notify you of the AUC's decision regarding the project. If the project is approved, construction activities could begin as early as September 2018 and is expected to take approximately 10 months to complete. During construction, a mobile substation may be used to maintain electrical service and reliability in your area.

If the project is approved, you may see or hear the following during the construction process:

- noise and construction crews
- activity at an existing substation

The application

The application (no. 23414) can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'eFiling System Login' button on the left side of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter 23414 into the 'Go to...' search bar on the left side of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Conrad" into the 'Description' search bar.

If you have any issues accessing the application or would like a printed copy, please contact us at the details below and we will mail a copy of the application to you.

Project background

The proposed project involves equipment upgrades at the existing Conrad Substation located in SW 3-7-16-W4. The project involves:

- adding one new 138/25 kV transformer
- adding two new 138 kV circuit breakers
- adding one new switchgear building containing four new 25kV circuit breakers
- salvaging one existing 25 kV circuit breaker
- a fence line expansion on the south side of the substation, approximately 20 metres by 72 metres

Contact us

AltaLink is available to gather any further input you have or address any questions or concerns. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at: <http://www.altalink.ca/projects/view/289/fortis-conrad-substation-upgrade>.

Sincerely,

Dave Lee
