Lougheed Telecommunications Tower Replacement Notice of application filing

Thank you for your ongoing participation in the Lougheed Telecommunications Tower Replacement. We submitted an application for the project to the Alberta Utilities Commission (AUC) on December 4, 2017.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

We will notify you of the AUC's decision regarding the project. If the project is approved, construction could begin in July 2018 and will take approximately four months to complete.

If the project is approved, you may see or hear the following during the construction process :

- noise and construction crews
- telecommunications tower construction
- work at an existing radio station

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'eFiling System Login' button on the left side of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter 23170 into the 'Go to...' search bar on the left side of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Lougheed" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

The Lougheed Telecommunications Tower Upgrade is 13 kilometers northeast of the Villiage of Lougheed and includes:

- replacing the existing 76 metre tower with a new, taller one approximately 95 metres
- expanding the fence line on AltaLink-owned land

A taller tower will enable the electric system to accommodate future growth by providing additional capacity and increased signal range, allowing us to maintain the reliability of the transmission system.

Contact us

We are available to gather any further input you have or address any questions or concerns. Please contact us at stakeholderrelations@altalink.ca or 1-877-269-5903.

Further information about this project and maps are available on www.altalink.ca/regionalprojects. You will find the project in the list in alphabetical order.

Sincerely,

Dave Lee
