Kirby North Central Processing Facility Connection Notice of Project Approval

Thank you for your ongoing participation in the Kirby North Central Processing Facility Connection project. The Alberta Utilities Commission (AUC) approved this project for construction on December 21, 2018.

Next steps

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- transmission structure construction
- wire stringing on the transmission structures

AUC approval

When the AUC approves a transmission project, it grants Altalink permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding23653/SitePages/ViewDispositions.aspx>.

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

If you have any issues accessing these permits and licences, please contact us at the details below and we will mail copies of the documents to you.

Project background

Altalink is proposing to connect Canadian Natural's proposed transmission line, to be called 789BL, to the electric system by connecting it to Altalink's existing 789L transmission line. The project involves modifying the existing 789L transmission line by installing five new structures, approximately 14 to 25 metres tall, and salvaging one structure.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <http://www.altalink.ca/projects/view/293/kirby-north-central-processing-facility-connection>.

Sincerely,

Dave Lee
