197L Transmission Line Rebuild Notice of application filing

Thank you for your ongoing participation in the 197L Transmission Line Rebuild. We submitted an application for the project to the Alberta Utilities Commission (AUC) on September 5, 2018.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

We will notify you of the AUC's decision regarding the project. Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

If the project is approved, you may see or hear the following during construction:

- noise and construction crews
- transmission structure construction
- wire stringing on the transmission structures
- Salvage of the existing line following the energization of the new line

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'eFiling System Login' button at the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter the proceeding number 23880 into the 'Go to...' search bar at the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "197L" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

We are proposing to relocate approximately 16 kilometres of the existing 197L transmission line, which is located approximately one kilometre east of Stavelly in the Municipal District of Willow Creek, along Township Road 142.

This transmission line has reached the end of its lifecycle and needs to be replaced as part of AltaLink's ongoing maintenance program. This project will ensure that the area continues to have a reliable source of electricity for years to come.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <http://www.altalink.ca/projects/view/294/197l-transmission-line-relocation>.

Sincerely,

Dave Lee
Manager, Stakeholder Engagement
