Judy Creek 515S Substation Transformer Upgrade

Notice of application filing

Thank you for your ongoing participation in the Judy Creek 515S Substation Transformer Upgrade project. We submitted an application for the project to the Alberta Utilities Commission (AUC) on August 9, 2018.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

We will notify you of the AUC's decision regarding the project. If the project is approved, a mobile substation may be used to maintain electrical service and reliability in your area. A mobile substation is electrical equipment mounted on a trailer which can temporarily supply energy while substation construction takes place.

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

If the project is approved, you may see or hear the following during the construction process:

- Noise and construction crews
- Activity at an existing substation
- A mobile substation adjacent to the existing substation

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter 23816 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Judy Creek" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

We are proposing to replace the existing 69 kilovolt (kV) transformer with another 69 kV transformer to address performance issues at the existing Judy Creek Substation in NE-34-63-10-W5M.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <http://www.altalink.ca/projects/view/307/judy-creek-substation-upgrade>.

Sincerely,

A handwritten signature in grey ink, appearing to be 'D. Lee', with a long horizontal flourish extending to the right.
