Elk River 445S Transformer Replacement Notice of application filing

Thank you for your ongoing participation in the 445S Elk River Transformer Replacement. We submitted an application for the project to the Alberta Utilities Commission (AUC) on March 19, 2019.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter 24424 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Elk River 445S" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

The proposed project is part of our routine maintenance schedule and will replace the existing transformer at the Elk River 445S Substation. Upgrades to the Elk River 445S Substation are required to maintain the safety and reliability of the electric system in your area.

The proposed project includes upgrading equipment in the Elk River 445S Substation, located at NW-1-46-14-W5 in the Brazeau Lakes area in Yellowhead County.

The substation upgrade includes:

- removing an existing 138/4.16-kilovolt (kV) transformer
- installing one new 138/4.16-kV transformer
- adding or modifying associated substation equipment

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at: <http://www.altalink.ca/projects/view/312/elk-river-445s-transformer-replacement-project>.

Sincerely,

Dave Lee
