## **5S East Calgary Substation Upgrade 2019 Notice of Project Approval**

Thank you for your ongoing participation in the 5S East Calgary Substation Upgrade 2019 project. The Alberta Utilities Commission (AUC) approved this project for construction on June 3, 2019.

### **Next steps**

We plan to begin construction in August, 2019, and expect to be finished in December, 2019. All work will take place on AltaLink-leased land and no fence expansion will be required for this project.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews working at an existing substation

### **AUC approval**

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding24587/SitePages/Home.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca).

If you have any issues accessing these Permits and Licences, please contact us at the details below and we will mail copies of the documents to you.

### **Project background**

The proposed project involves equipment upgrades at the existing 5S East Calgary Substation, located at SW-11-24-1-W5M, in the City of Calgary, along Blackfoot Trail southeast of Stampede Park.

- The proposed substation upgrade includes: replacing an existing capacitor bank with a new capacitor bank
- replacing an existing circuit switcher with a new circuit breaker
- upgrades to protection and control equipment
