

April 2, 2020

Duchess 339S Faulting Switch Replacement
Notice of application filing

Thank you for your ongoing participation in the Duchess 339S Faulting Switch Replacement. We submitted an application for the project to the Alberta Utilities Commission (AUC) on March 6, 2020. The AUC approved the application on March 25, 2020.

Next steps

We plan to begin construction in April 2020 and anticipate it will take approximately seven month to complete. Depending on where you are in relation to the project, you may see or hear:

- Noise and construction crews
- Work at an existing substation

AUC approval

When the AUC approves a transmission project, it grants Altalink permits and licenses. The permit and licenses for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding25441/SitePages/Home.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select ‘New Account’ in the Login box and follow the steps onscreen. Please note, any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca

If you have any issues accessing these permits and licenses, please contact us at the details below and we will mail copies of the documents to you.

Project background

The proposed project involves removing a faulting switch and replacing it with a 138kV circuit breaker upgrades at the existing Duchess 339S Substation. No fenceline expansion will be required as part of this project.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <http://www.altalink.ca/projects/view/321/duchess-339s-substation-faulting-switch-replacement>

Sincerely,

Dave Lee
