**KXL Keystone Eyre 558S Substation Interconnection
Notice of project cancellation**

Thank you for your participation in the KXL Keystone Eyre 558S Substation Interconnection. This project was approved by the Alberta Utilities Commission (AUC) on May 27, 2011 to support the Keystone XL Project proposed by TransCanada Keystone Pipeline Limited Partnership (TC Energy).

AltaLink's approved project included:

- Building approximately 17 kilometers of new 144 kilovolt (kV) transmission line
- Building a new substation, called Eyre 558S, located in SW-14-39-6-W4
- Installing a telecommunications tower, approximately 25 metres in height, in the new substation

Construction of the approved project has not started, and this letter is to inform you that on August 4, 2021, TC Energy formally requested that AltaLink cancel the project.

Additionally, on August 16, 2021, the Alberta Electric System Operator (AESO) cancelled the project's request for system access service. See the enclosed AESO Stakeholder Update – Project Cancellation for more information. If you have questions about the cancelled request for system access service, please contact the AESO at 1-888-866-2959 or stakeholder.relations@aeso.ca.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. You can also view more information about the project at <http://www.altalink.ca/projects>.

Sincerely,

Dave Lee
Manager, Consultation
