

NOTES

The right-of-way boundary is approximately 12 m wide from the edge of the road allowance.

An additional 25 m of construction workspace will be required adjacent to the right-of-way.

Up to six new structures will be installed between A0 and A10 or B0 and B10. If approved, only one modification site will be constructed.

Enerfin's preferred transmission line route connects to the 879L transmission line at point designation A5, and the alternate route connects at point designation B5.
