CKPC Petrochemical Facility Connection – Project cancellation

Thank you for your participation in the CKPC Petrochemical Facility Connection project. This letter is to inform you that on September 7, 2022, the Alberta Electric System Operator (AESO) cancelled Canada Kuwait Petrochemical Corporation's (CKPC) request for system access service to the electric system.

As a result, AltaLink's related project is no longer required and the AESO has directed AltaLink to cancel the project. See the enclosed AESO Stakeholder Update – Project Cancellation for more information.

If you have questions about the cancelled request for system access service, please contact the AESO at 1-888-866-2959 or stakeholder.relations@aeso.ca.

Project background

CKPC requested a connection to the transmission system for their proposed petrochemical facility. This project would have involved constructing a new substation inside CKPC's petrochemical facility located in NE-11-56-22-W4, approximately four kilometres of new transmission line, and optical ground wire (OPGW) along the new transmission line.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. You can also view more information about the project at <http://www.altalink.ca/projects>.

Sincerely,

Kris Gladue
Manager, Stakeholder Engagement
