**Boreal 193S Substation Connection Project  
Notice of project approval**

Thank you for your ongoing participation in the Boreal 193S Substation Connection Project. The Alberta Utilities Commission (AUC) approved this project for construction on March 29, 2016.

**AUC approval**

When the AUC approves a transmission project, it grants AltaLink Permits and Licences. The Permits and Licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding20537/SitePages/Home.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca).

If you have any issues accessing these Permits and Licences, please contact us at the details below and we will mail copies of the documents to you.

**Project background**

A new 240 Kilovolt (kV) transmission line is required to connect the proposed Cenovus FCCL Ltd. Boreal 193S Substation to AltaLink's existing 971L transmission line. This will allow Cenovus' approved Narrows Lake Oil Sands Project to receive power from the Alberta Interconnected Electric System.

The Boreal 193S Substation Connection Project is located approximately 12 kilometres (seven miles) east of Conklin, in the Regional Municipality of Wood Buffalo. We are proposing to construct one 240 kilovolt (240,000 volts) single-circuit transmission line approximately 13 kilometres (eight miles) in length that will connect to the existing 971L line between the existing Black Spruce 154S and Conklin 762S substations.

**Contact us**

We are available to gather any further input you have or address any questions or concerns. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-269-5903. Further information about this project and maps are available on [www.altalink.ca/regionalprojects](http://www.altalink.ca/regionalprojects). You will find the project in the list in alphabetical order.

We will update you if the status of this project changes.

Sincerely,

Dave Lee  
Manager, Consultation  
AltaLink
