

Project Cancellation for the Old Elm Wind Farm Project Connection

The Old Elm Wind Farm Ltd. (Old Elm) request for transmission system access to connect its approved Old Elm Wind Farm Project (Facility) in the Magrath area has been cancelled.

BACKGROUND

In June 2020, AltaLink Management Ltd. began distributing an information package that included the AESO's Need Overview, Old Elm Wind Farm Project Connection. The AESO Need Overview included the following transmission developments:

- Add one 138 kilovolt (kV) transmission line to connect the Facility using a T-tap configuration.
- Add or modify associated equipment as required for the above transmission development.

NEXT STEPS

The AESO no longer intends to apply to the Commission for approval of the above developments.

Information related to the Old Elm Wind Farm Project Connection project is available on the AESO's website at <https://www.aeso.ca/grid/projects/>

WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
