BowArk Queenstown Power Plant Interconnection Notice of application filing

Thank you for your ongoing participation in the BowArk Queenstown Power Plant Interconnection. We submitted an application for the project to the Alberta Utilities Commission (AUC) on February 27, 2015.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

We will notify you of the AUC's decision regarding the project. If the project is approved, construction could begin in April 2016 and will take approximately four months to complete.

If the project is approved, you may see or hear the following during the construction process:

- noise and construction crews
- transmission structure construction
- wire stringing on the transmission structures
- work at the existing Queenstown Substation

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'eFiling System Login' button on the left side of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter "20202" into the 'Go to...' search bar on the left side of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "BowArk Queenstown" into the 'Proceedings description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

The BowArk Queenstown Power Plant Interconnection is approximately 10 kilometres (six miles) northwest of the Village of Milo (in SW-17-19-22-W4) and includes:

- constructing approximately 100 metres (328 feet) of new 138 kV transmission line

- modifications to the existing Queenstown Substation

This transmission development will connect BowArk Energy Ltd.'s McGregor Lake Substation to its proposed power plant, providing our growing province with a new source of electricity.

Contact us

We are available to gather any further input you may have or address any questions or concerns. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453.

Further information about this project and maps are available on www.altalink.ca/regionalprojects. You will find the project in the list in alphabetical order.

Sincerely,

Dave Lee
Manager, Stakeholder Engagement
