## **Carseland Substation Transformer Replacement Notice of project approval**

Thank you for your ongoing participation in the Carseland Substation Transformer Replacement project. The Alberta Utilities Commission (AUC) approved this project for construction on May 13, 2022.

### **Next steps**

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

We plan to begin construction in summer 2022 and anticipate construction to be complete in fall of 2022.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- construction equipment
- work at an existing substation

### **AUC approval**

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding27364/SitePages/ViewIssuedDisposition.aspx?DispositionID=54567>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca).

If you have any issues accessing these Permits and Licences, please contact us at the details below and we will mail copies of the documents to you.

## Project background

AltaLink's approved project is located at two separate substation locations.

The Cope Creek Substation is located approximately 7.3 kilometres southwest from the Town of Cochrane. AltaLink has received approval from the AUC to remove the remaining transformer at the Cope Creek Substation and relocate it to the Carseland Substation.

The Carseland Substation is located approximately 10 kilometres west of the Hamlet of Carseland in Wheatland County. AltaLink has received approval from the AUC to replace one 138/13.8 kV transformer with the Cope Creek transformer in the summer of 2022.

## Contact us

We are available to address any questions or concerns you may have. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/projects/view/360/carseland-substation-transformer-replacement>.

Sincerely,

Kris Gladue
