North Lethbridge 370S Substation Upgrade Notice of project approval

Thank you for your ongoing participation in the North Lethbridge 370S Substation Upgrade project. The Alberta Utilities Commission (AUC) approved this project for construction on September 9, 2021.

Next steps

We plan to begin construction in April 2022 and anticipate construction to be complete in September 2022.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- work at an existing substation

AUC approval

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding26784/SitePages/Home.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

If you have any issues accessing these Permits and Licences, please contact us at the details below and we will mail copies of the documents to you.

Project background

The project involves equipment upgrades at the existing North Lethbridge Substation, located in the City of Lethbridge in SW-18-9-21-W4.

The upgrade will add one new 138 kV (kilovolt) circuit breaker and associated equipment to the substation. All work will take place on AltaLink owned land and no fence expansion will be required.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at:
