

# Spring Coulee Telecommunications Pole Salvage

You are receiving this newsletter because AltaLink is proposing to salvage a telecommunications pole near you.

The **telecommunications pole** at AltaLink's Spring Coulee substation is no longer required so we are proposing to remove it. The Spring Coulee substation is located in SE-15-4-24-W4M in Cardston County. Please see the enclosed map for more details.

We will file an application with the Alberta Utilities Commission (AUC) to perform this work. If this project is approved, you may see or hear construction crews in the area. We have set strict standards by which we operate, including restricting work hours to between 7 a.m. and 7 p.m. to reduce the impacts to local residents and businesses, ensuring safe construction practices and following environmental protection measures.

All work related to this salvage, including the potential use of cranes, will occur on land owned by AltaLink. Access to private property is not required.

## Next steps

After our notification process is complete, we will file our application with the AUC. The AUC ensures the fair and responsible delivery of Alberta's utility services.

To learn more about the AUC process and how you can become involved, please refer to the brochure included in this package titled *Participating in the AUC's independent review process*.

## DEFINITION:

### Telecommunications pole

Telecommunications poles transmit data to our system and control centre allowing us to monitor the operation of the electric system and ensure the safety and reliability of the system for our customers.

## Let's talk transmission

[www.facebook.com/altalinktransmission](https://www.facebook.com/altalinktransmission)

[www.twitter.com/altalink](https://www.twitter.com/altalink)

## Anticipated project schedule

Notify stakeholders	June 2021
File application with Alberta Utilities Commission (AUC)	July 2021
Start construction if project is approved	August 2021
Complete construction	August 2021

*Although we attempt to follow the anticipated project schedule it is subject to change. We will continue to provide you with updated schedule information if required as the project progresses.*

## Keeping the lights on during COVID-19

AltaLink is closely monitoring the spread of COVID-19. Our priority is maintaining the health and safety of our employees, contractors, and the general public while ensuring that we can continue to operate our system and keep the lights on for Albertans.

## Contact us

*To learn more about the proposed project please contact:*

### **ALTALINK**
