Dunmore Solar Power Project Connection Notice of application filing and approval

Thank you for your ongoing participation in the Dunmore Solar Power Project Connection. AltaLink submitted an application for the project to the Alberta Utilities Commission (AUC) on December 9, 2021, and the AUC approved this project for construction on December 22, 2021.

Next steps

AltaLink plans to begin construction in January 2023 and anticipates construction to be complete in March 2023.

Depending on your location in relation to the project, you may see or hear:

- noise and construction crews;
- work on existing transmission structures;
- wire stringing on the transmission structures; and
- installation of underground fibre optic cable.

AUC Approval

When the AUC approves a transmission project, it grants AltaLink Permits and Licences. The Permits and Licences for this Project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding27046/SitePages/ViewDispositions.aspx>

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca

Once your account has been created and you have successfully logged in, enter Filing number 27046 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Dunmore" into the 'Description' search bar.

If you have any issues accessing the application, please contact AltaLink at the details below and a copy of the application will be mailed to you.

Project background

Dunmore Solar Inc. (Dunmore Solar) has requested system access service from the Alberta Electric System Operator to connect its approved Dunmore Solar Power Project to the Alberta Interconnected Electric System (AIES). Dunmore Solar's approved facility includes a new substation, to be designated as the Dunmore 1011S Substation.

To connect Dunmore Solar's new substation to the AES, AltaLink will be constructing approximately 100 meters of new transmission line between Dunmore Solar's new substation and AltaLink's existing 675L transmission line (675L) in the area. AltaLink will also be installing new underground fibre optic telecommunications cable within the right-of-way of the proposed new transmission line and modifying one structure on the 676L.

The project is located in SE-33-12-4-W4 in Cypress County, approximately nine kilometers northeast of the Hamlet of Dunmore.

Contact us

AltaLink is available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this Project and maps are available at:
