Georgetown Solar Project Connection Notice of application filing

Thank you for your ongoing participation in the Georgetown Solar Project Connection. We submitted an application for the project to the Alberta Utilities Commission (AUC) on July 21, 2023. We also want to provide you with information about a project update.

Project update

As a result of additional engineering, AltaLink has determined that the proposed new structure on the existing 924L transmission line will shift slightly further south of the existing centerline. In addition, the angle of the proposed new transmission line (to be called 924AL) to the customer's approved Mossleigh Substation has shifted slightly as well.

AltaLink has also shifted the proposed telecommunications tower approximately 40 metres west within the Mossleigh Substation.

Please refer to the detail photo map in this package for the locations of the transmission line and telecommunications tower.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

Where construction activities are required to take place on your private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca

Once your account has been created and you have successfully logged in, enter Filing number 28327 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Georgetown Solar" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

AltaLink's proposed project is located approximately 8.5 kilometres south of the Hamlet of Carseland in SE-17-21-25-W4.

To connect the Georgetown Solar Project to the electric system, AltaLink's proposed project includes:

- adding one new structure on the existing 240 kilovolt (kV) transmission line (called 924L)
- building approximately 150 metres of new 240 kV transmission line (to be called 924AL)
- installing a new telecommunications tower within the Mossleigh Substation located in NE-8-21-25-W4

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/projects/view/401/georgetown-solar-project-connection/>

Sincerely,

Kris Gladue
