174L Transmission Line Structure Relocation Notice of application filing and approval

Thank you for your ongoing participation in the 174L Transmission Line Structure Relocation. We submitted an application for the project to the Alberta Utilities Commission (AUC) on October 17, 2025. The Alberta Utilities Commission (AUC) approved this project for construction on October 24, 2025.

Next steps

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

We currently plan to begin construction in January 2026 in coordination with Cantiro site grading, and anticipate construction to be completed by June 19, 2026.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- monopole structure construction
- removal of H-frame structure

AUC Approval

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:
<https://www2.auc.ab.ca/proceeding/30372>

To access the application, scroll down the main page and click on the 'Access here' option under 'Access to the eFiling System' and log in to your eFiling account. If you do not have an account, select 'New personal account' or 'New organization account' and follow the steps on the screen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter filing number 30372 into the 'Go to...' search bar on the top of the page to locate the application.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

To accommodate Cantiro's upcoming construction project, AltaLink is proposing to relocate and remove one structure and add two new structures on its existing 174L Transmission Line located in southeast Edmonton in the south half of Section 30-51-23-W4. The relocation has been requested by Cantiro to align with their development plans for a residential subdivision.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/174l-transmission-line-structure-relocation/>.

Sincerely,

Kris Gladue
