199L Transmission Line Relocation
Notice of application filing and approval

Thank you for your ongoing participation in the 199L Transmission Line Relocation. We submitted an application for the project to the Alberta Utilities Commission (AUC) on May 29, 2025. The Alberta Utilities Commission (AUC) approved this project for construction on June 4, 2025.

Next steps

We plan to begin construction in July 2025 and anticipate construction to be complete in December 2025.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- transmission structure construction
- wire stringing on the transmission structures
- salvage of replaced transmission structures

AUC Approval

When the AUC approves a transmission project, it grants AltaLink Permits and licenses. The permits and licenses for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/proceeding/30073>

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca

Once your account has been created and you have successfully logged in, 30073 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "AML 199L" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

To accommodate the Virginia Hills Road rest stop expansion project, AltaLink will be relocating a portion of an existing 138 kilovolt (kV) transmission line called 199L. The project is located in

Woodlands County, 37 kilometres west of Whitecourt, Alberta in N-20-61-15-W5 and NW-21-61-15-W5.

The relocation has been requested by Alberta Transportation and Economic Corridors to expand the existing Virginia Hills Road rest stop on Highway 43.

AltaLink is making changes to its existing 199L transmission line, including replacing 11 wooden monopole and H-frame structures and realigning approximately 1.3 kilometres of the 199L transmission line so that it is parallel to Highway 43.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/199l-transmission-line-relocation/>.

Sincerely,

Kris Gladue
Manager, Stakeholder Engagement
