## **BowArk Drywood Gas Generation Connection Notice of application filing**

Thank you for your ongoing participation in the BowArk Drywood Gas Generation Connection. We submitted an application for the project to the Alberta Utilities Commission (AUC) on June 18, 2019.

### **Next steps**

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit [www.auc.ab.ca](http://www.auc.ab.ca)

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

### **The application**

The application can be viewed on the AUC's website at [www.auc.ab.ca](http://www.auc.ab.ca).

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca)

Once your account has been created and you have successfully logged in, 24644 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "BowArk" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

### **Project background**

BowArk Energy Ltd. has requested a connection to the transmission system for their proposed Harland Substation, which is part of the BowArk Drywood Expansion Power Plant Facility.

AltaLink's proposed project involves building approximately 150 metres of new 138 kV (kilovolt) transmission line (called 164BL) to connect BowArk's proposed Harland Substation to AltaLink's existing 164L transmission line.
