## **Sollair Solar Energy Project Connection Notice of application filing**

Thank you for your ongoing participation in the Sollair Solar Energy Project Connection (the Project). We submitted an application for the project to the Alberta Utilities Commission (AUC) on September 22, 2022.

### **Next steps**

The AUC will review the application and can approve, approve with conditions, or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit [www.auc.ab.ca](http://www.auc.ab.ca).

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

### **The application**

The application can be viewed on the AUC's website at <https://www2.auc.ab.ca/Proceeding27661/SitePages/Home.aspx>

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca).

Once your account has been created and you have successfully logged in, enter Filing number 27661 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Sollair" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

### **Project background**

General Land & Power Corporation is proposing to build a new substation as part of their Sollair Solar Energy Project. AltaLink's proposed project is located within Airdrie city limits and Rocky View County.

To connect the proposed Sollair Solar Project to the electric system, AltaLink's proposed project includes:

- building approximately 40 metres of a new 138kV transmission line (called 688BL) between the existing 688L transmission line and the Sollair Substation
- adding a new structure to connect the existing 688L line to the 688BL line
- installing approximately 14 kilometres of underground fibre optic cable between AltaLink's East Airdrie Substation, the proposed Sollair Substation, and AltaLink's Summit Substation.

**Contact us**

We are available to address any questions or concerns you may have. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/projects/view/386/sollair-solar-energy-project-connection>

Sincerely,

Kris Gladue  
Manager, Stakeholder Engagement
