

March 27, 2023**Jurassic Solar Project Connection – Notice of application filing and approval**

Thank you for your ongoing participation in the Jurassic Solar Project Connection. We submitted an application for the project to the Alberta Utilities Commission (AUC) on March 2, 2023. The AUC approved this project for construction on March 24, 2023.

Project update

After additional engineering work and stakeholder consultation AltaLink has determined that we can modify an existing structure on the 944L transmission line to accommodate the connection to the Jurassic Solar Project. No additional structure or structure replacement is required.

AltaLink has also determined that the height of the telecommunications tower within Jurassic Solar's proposed Raptor Substation will be approximately 33 meters.

Next steps

We plan to begin construction in September 2023 and anticipate construction to be complete in winter 2023.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- construction of new telecommunications tower

AUC approval

When the AUC approves a transmission project, it grants AltaLink Permits and licenses. The permits and licenses for this project can be viewed on the AUC website at:
www2.auc.ab.ca/Proceeding28064/SitePages/Home.aspx

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca

Once your account has been created and you have successfully logged in, enter Filing number "28064" into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Jurassic" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

Jurassic Solar is constructing a new substation and transmission line as part of their new Jurassic Solar Project. The project is in Cypress County, approximately 37 kilometers northeast of the City of Brooks.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at www.altalink.ca/projects/view/392/jurassic-solar-project-connection

Sincerely,

Kris Gladue
