185L and 412L Transmission Line Rebuild Notice of project approval

Thank you for your ongoing participation in the 185L and 412L Transmission Line Rebuild project. The Alberta Utilities Commission (AUC) approved this project for construction on September 13, 2024.

Next steps

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

AltaLink is planning to delay construction until late 2026 and anticipates construction to be complete by December 31, 2026. AltaLink will contact affected stakeholders prior to construction. Should you have questions regarding this delay, please contact us via the information provided below.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- selective tree and vegetation clearing
- transmission structure construction
- wire stringing on the transmission structures

AUC approval

When the AUC approves a transmission project, it grants AltaLink permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding29077/SitePages/Home.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

If you have any issues accessing these permits and licences, please contact us at the details below and we will mail copies of the documents to you.

Project background

The proposed project is located approximately one kilometre north of the Town of Pincher Creek. It involves rebuilding approximately 5.5 kilometres of:

- existing 69 kilovolt (kV) single-circuit transmission line (called 185L)
- existing 138 kV single-circuit transmission line (called 412L)

Instead of rebuilding these as two separate lines, AltaLink will consolidate both of the single-circuit lines into one new double-circuit transmission line. The new transmission line will be rebuilt within AltaLink's existing rights-of-way.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/185l-and-412l-transmission-line-rebuild/>

Sincerely,

Kris Gladue
Manager, Stakeholder Engagement
