East Edmonton 38S Substation Upgrade Notice of application filing and approval

Thank you for your ongoing participation in the East Edmonton 38S Substation Upgrade. We submitted an application for the project to the Alberta Utilities Commission (AUC) on April 23, 2026. The AUC approved this project for construction on April 30, 2026.

Next steps

Construction began in May 2026, and we anticipate construction to be completed at the end of October 2026. Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- work at an existing substation
- increased vehicle traffic at the existing substation

AUC Approval

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/proceeding/30780>

To access the application, scroll down the main page and click on the 'Access here' option under 'Access to the eFiling System' and log in to your eFiling account. If you do not have an account, select 'New personal account' or 'New organization account' and follow the steps on the screen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter filing number "30780" into the 'Go to...' search bar on the top of the page to locate the application.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

AltaLink is upgrading equipment at its East Edmonton 38S Substation to ensure a reliable supply of electricity is available in the area for years to come. The project is located in Sherwood Park.

As part of the upgrade, AltaLink will:

- replace one existing transformer with two new transformers
- replace one existing circuit breaker with one new circuit breaker
- install two new circuit breakers
