

**54L TRANSMISSION LINE REBUILD**

AltaLink  
2611 3 Avenue SE  
Calgary, AB T2A 7W7

## **Thank you for your continued engagement in the 54L Transmission Line Rebuild**

In our project overview, we stated that we anticipated filing a project application in early 2026. During consultation, we received valuable project feedback from stakeholders that we believe is important to assess. We will therefore continue to evaluate options through detailed engineering and field studies in early 2026.

We remain committed to keeping you informed. We expect to have an update to share with you in the coming months and we now anticipate filing the project application in Summer 2026.
