## **Vauxhall Area Transmission Development (VATD) – 879L Transmission Line Restoration Construction update**

Thank you for your ongoing participation in the VATD – 879L Transmission Line Restoration project. AltaLink received approval for this project from the Alberta Utilities Commission (AUC) in October 2023 and is now preparing to begin construction.

The 879L Transmission Line Restoration project involves modifying and replacing select structures along the existing 879L right-of-way in the County of Forty Mile and Cypress County.

### **Next steps**

AltaLink plans to begin construction in mid-November 2024 and anticipates construction to be complete by the end of November.

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- right-of-way and construction preparation
- modifying and replacing select structures along 879L

### **Contact us**

We are available to address any questions or concerns you may have. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/vauxhall-area-transmission-development-vatd>.

Sincerely,

Kris Gladue  
Manager, Stakeholder Engagement
