Brazeau Outlet Works Substation Upgrade Notice of application filing and approval

Thank you for your ongoing participation in the Brazeau Outlet Works Substation Upgrade. We submitted an application for the project to the Alberta Utilities Commission (AUC) on April 23, 2025. The AUC approved this project for construction on May 1, 2025.

Next steps

We plan to begin construction in May 2025 and anticipate construction to be complete in December 2027. Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- work at an existing substation
- transmission structure construction
- increased vehicle activity

AUC Approval

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:
<https://www2.auc.ab.ca/proceeding/29989>

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca

Once your account has been created and you have successfully logged in, enter Filing number 29989 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Brazeau" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

Project background

AltaLink is upgrading equipment at its existing Brazeau Outlet Works 294S Substation, located approximately 700 metres from the Brazeau Dam and 24 kilometres northeast of the Hamlet of Lodgepole.

The project includes:

- replacing two aging transformers with two new transformers
- installing new circuit breakers
- constructing a temporary bypass transmission line and utilizing a temporary mobile substation to avoid interruption to service
- replacing select structures on the 801L transmission line
- splitting the 801L transmission line into two portions

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/brazeau-outlet-works-substation-upgrade>.

Sincerely,

Kris Gladue
