

Cancellation of the Bull Trail Wind Power Project Connection

The Bull Trail Renewable Energy Centre Limited Partnership request for transmission system access to connect its approved Bull Trail Wind Power Project (Facility) in the Irvine area has been cancelled.

BACKGROUND

In June 2022, AltaLink began distributing an information package that included the AESO's Need Overview, Bull Trail Wind Power Project Connection. The AESO Need Overview included the following transmission developments:

- Add one substation, to be designated Gros Ventre Creek 1141S, including three 240 kilovolt (kV) circuit breakers.
- Connect the proposed Gros Ventre Creek 1141S substation to the existing 240 kV transmission line 983L in an in-and-out configuration.
- Add one 240 kV transmission line to connect the Facility to the Gros Ventre Creek 1141S substation.
- Add or modify associated equipment as required for the above transmission developments.

NEXT STEPS

The above developments are no longer needed and the AESO will not submit an application to the Alberta Utilities Commission or consider this project under section 501.3 of the ISO rules, *Abbreviated Needs Approval Process*.

Information related to the Bull Trail Wind Power Project Connection is available on the AESO's website at <https://www.aeso.ca/grid/transmission-projects/>

WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
