

How to read your map

This map will help you locate proposed routes in relation to your property. The side titled Detail Base highlights routing criteria such as residences and environmental considerations. The side titled Detail Photo is an aerial image and provides landscape details. The black dots and corresponding letters and numbers (for example A20) will help you identify the route you are closest to.

	Red Potential 240 kV transmission line route		Orange Potential 500 kV transmission line route
	Orange and red dashed Potential 240 kV or 500 kV transmission line route		Blue box Potential substation development area

Although there are many proposed route locations, if the project is approved by the Alberta Utilities Commission, only one route will be constructed.

LEGEND

● Point Designation	Potential Substation Target Area	Highway	Urban Area
Potential Substation Upgrade	Existing Substation	Road	Water Body
Potential Telecommunication Tower Site	Existing Transmission Line	Municipal or County Boundary	Other Altalink Project
Potential 240kV Transmission Line Route	DU Ranchlands Cabin	Pipeline	Potential Alberta/British Columbia Intertie Restoration Project Series Capacitor Location
Potential 240kV or 500kV Transmission Line Route	Hamlet or Locality	Railway	
Potential 500kV Transmission Line Route	Residence	River or Stream	
Potential Modification of Existing Transmission Line	Wind Turbine - Existing	Airport	
Potential Salvage of Existing Transmission Line	Wind Turbine - Future	First Nations Reserve	
Study Area	DU Ranchlands Viewscapes	Park / Other Protected Area
