Eastervale Solar Connection Notice of application filing

Thank you for your ongoing participation in the Eastervale Solar Connection project. We submitted an application for the project to the Alberta Utilities Commission (AUC) on September 19, 2025.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, scroll down the main page and click on the 'Access here' option under 'Access to the eFiling System' and log in to your eFiling account. If you do not have an account, select 'New personal account' or 'New organization account' and follow the steps on the screen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter Filing number 30272 into the 'Go to...' search bar on the top of the page to locate the application.

If you have any issues accessing the application, please contact us at the phone number or email address below and we will mail a copy of the application to you.

Project background

To connect Eastervale Solar Inc.'s solar project to the grid, AltaLink is proposing a new transmission line and other changes to its transmission system. The project is located in the Municipal District of Provost No. 52, approximately 17 kilometres (km) south of the Village of Amisk.

AltaLink's proposed project includes:

- constructing approximately 900 metres of new 240 kilovolt transmission line (to be named 1047AL)
- installing a new telecommunications tower in Eastervale Solar's proposed substation (Eastervale 1090S)
- minor upgrades or modifications to existing associated structures and equipment as needed
- upgrades at the Metiskow 648S substation located approximately 32 km southeast of the project area
