Edmonton Carbon Capture Utilization and Storage (CCUS) Gas Connection Notice of application filing

Thank you for your ongoing participation in the Edmonton Carbon Capture Utilization and Storage (CCUS) Gas Connection. We submitted an application for the project to the Alberta Utilities Commission (AUC) on October 31, 2025.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, scroll down the main page and click on the 'Access here' option under 'Access to the eFiling System' and log in to your eFiling account. If you do not have an account, select 'New personal account' or 'New organization account' and follow the steps on the screen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter Filing number "30409" into the 'Go to...' search bar on the top of the page to locate the application.

If you have any issues accessing the application, please contact us at the phone number or email address below and we will mail a copy of the application to you.

Project background

To connect Heidelberg Materials Canada Ltd's (Heidelberg's) proposed project to the grid, AltaLink is proposing to:

- modify its 747L transmission line by disconnecting it from EPCOR's 711L transmission line and building approximately 250 metres of new transmission line to connect it to the 37S North Calder Substation
- modify the existing 37S North Calder Substation by adding one new 138 kilovolt (kV) circuit breaker
