### **Enterprise Solar Connection– Project cancellation notification**

Thank you for your participation in the Enterprise Solar GP Inc.'s (Enterprise Solar) Enterprise Solar connection project. In March 2021, AltaLink began consulting with stakeholders on the proposed project.

This letter is to inform you that on December 1, 2025, Enterprise Solar requested to cancel their system access service request with the Alberta Electric System Operator (AESO). As a result, AltaLink's related project is no longer required.

If you have questions about Enterprise Solar's project, please contact Ron Galbraith, Land Agent & Community Relations at 403-866-6469 or [ron.galbraith@res-group.com](mailto:ron.galbraith@res-group.com).

If you have questions about the cancelled request for system access service, please contact the AESO at 1-888-866-2959 or [stakeholder.relations@aeso.ca](mailto:stakeholder.relations@aeso.ca).

### **Project background**

AltaLink had proposed to connect Enterprise Solar GP Inc.'s solar project to the grid by:

- modifying one structure and adding a new structure on the 161L transmission line located in SW-26-16-25-W4
- upgrading equipment to existing AltaLink substations

As part of this project, AltaLink completed the installation of optical grounding wire (OPGW) on the two structures, and this OPGW will remain in place.

Work might be required at surrounding substations to support the cancellation of this project. AltaLink's engineering team is reviewing these requirements and will determine what, if any, equipment needs to be removed or adjusted. If required, all work will be within the existing fence line of the surrounding substations.

### **Contact us**

We are available to address any questions or concerns you may have. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. You can also view more information about the project at <http://www.altalink.ca/projects>.

Sincerely,

Kris Gladue  
Manager, Stakeholder Engagement
