## **Peigan Substation Partial Salvage Notice of project approval**

Thank you for your ongoing participation in the Peigan Substation Partial Salvage project. The Alberta Utilities Commission (AUC) approved this project for construction on August 13, 2024.

### **Next steps**

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

We plan to begin construction in November 2024 and anticipate construction to be complete by the end of the year.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- work at an existing substation

### **AUC approval**

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding29040/SitePages/ViewDispositions.aspx>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca)

If you have any issues accessing these Permits and Licences, please contact us at the details below and we will mail copies of the documents to you.

### **Project background**

AltaLink is proposing to remove some of TransAlta's equipment that is no longer required at the existing Peigan Substation.

The Peigan Substation is located on the Piikani Reserve No.147, approximately 15 kilometres northeast of the community of Brocket.

We are proposing to remove two circuit breakers that are no longer required.
