McLaughlin Wind Aggregated Generating Facility Connection – Project cancellation notification

Thank you for your participation in the McLaughlin Wind Aggregated Generating Facility Connection. In May 2015, AltaLink began consulting with stakeholders on the proposed project.

We want to inform you that on August 30, 2023, McLaughlin Wind LP requested to cancel their system access service request with the Alberta Electric System Operator (AESO). As a result, AltaLink's related project is no longer required.

Information from the AESO about the cancellation is included with this letter. If you have questions about the cancelled request for system access service, please contact the AESO at 1-888-866-2959 or stakeholder.relations@aeso.ca.

Project background

To connect the McLaughlin Wind Aggregated Generating Facility to the grid, AltaLink had proposed:

- constructing approximately 110 metres of new transmission line
- modifying the existing 164L transmission line
- installing fibre optic cable in three locations

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. You can also view more information about the project at <http://www.altalink.ca/projects>.

Sincerely,

Kris Gladue

Manager, Stakeholder Engagement
