853AL Transmission Line Relocation Notice of application filing

Thank you for your ongoing participation in the 853AL Transmission Line Relocation. We submitted an application for the project to the Alberta Utilities Commission (AUC) on June 30, 2026.

Project background and update

Since the November 2025 project newsletter, AltaLink has completed additional engineering work and made minor revisions to the project scope. The proposed project now includes:

- Relocating 3.4 kilometres (km) of existing 853AL transmission line to a 9.7 km route within the road allowances surrounding the proposed reservoir expansion.
- Rebuilding approximately 300 metres (m) of the existing 853AL transmission line as part of the relocated alignment
- Salvaging the approximately 3.4 km of existing transmission line following the energization of the relocated transmission line

The November 2025 newsletter identified the relocation route as approximately 9.5 km in length. Following an additional 300 m rebuild section, the relocation route has been refined to approximately 9.7 km.

Approximate structure heights have also been slightly modified following additional engineering. Structures that were originally identified as having an approximate height of 20-23 m are now projected to be between approximately 18-23 m.

Please see the map included with this letter for an overview of the project area.

We do not believe this change results in any additional impacts to stakeholders; however, if you would like to discuss this change, please contact us via the information provided below.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, scroll down the main page and click on the 'Access here' option under 'Access to the eFiling System' and log in to your eFiling account. If you do not have an account, select 'New

personal account' or 'New organization account' and follow the steps on the screen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter Filing number 30931 into the 'Go to...' search bar on the top of the page to locate the application.

If you have any issues accessing the application, please contact us at the phone number or email address below and we will mail a copy of the application to you.

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/853al-transmission-line-relocation/>.

Sincerely,

Kris Gladue
